SPU131 series

V2.1

130W External Power Supply for General Purpose

The SPU131 series of AC/DC switching mode power supplies provide 130 Watts of continuous output power. All models meet FCC Part-15 class B and CISPR-32 class B emission Limits and are designed to comply with UL/c-UL and CE marking conformity assessment. All units pass burn-in test at full load condition.

FEATURES:

- * Wide Operating Voltage 90 to 260 VAC,47 to 63 Hz
- * IEC-320-C14 Input Inlet
- * Active Power Factor Correction
- * Single Output
- * ON/OFF SWITCH (Optional)
- * Crowbar Mode Over Voltage Protection
- * DoE VI
- * 3 year warranty

APPLICATIONS:

- * Printer
- * Industrial PC
- * Power Tools
- * DC Moto
- * AV Equipment
- * LED Lighting

GENERAL SPECIFICATION:

- * Short Circuit Protection: Auto Recovery
- * Cooling: Free Air Convection
 * Protection Classes: Class I
- * Safety: IEC 62368-1 Edition 2.0, UL 62368-1, CAN/CSA-C22.2 NO.62368-1-14, EN 62368-1:2014, J 62368-1

SPU131 series

V2.:

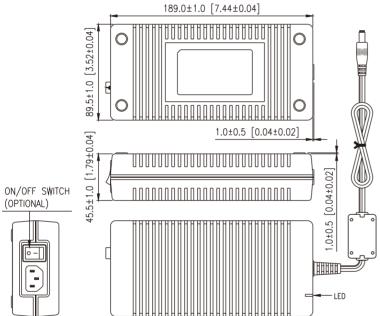

130W External Power Supply for General Purpose

SPECIFICATION NOTE:

- Output can provide up to peak load when the power supply starts up. Continuous staying in more than rated load is not allowed.
- At factory, in 60% rated load condition, each output is checked to be within voltage accuracy.
- 3. Line regulation is defined by changing $\pm 10\%$ of input voltage from nominal line at rated load.
- 4. Load regulation is defined by changing $\pm 40\%$ of measured output load from 60% rated load.
- The ripple is measured from peak to peak with a bandwidth-limit of 20MHz (Measured at the output connector with a 0.1uF ceramic capacitor and a 47uF electrolytic capacitor).
- 6. Hold up time is measured from the end of the last charging pulse to the time which the main output drops down to low limit of main output at rated load and nominal line.
- 7. Efficiency is measured at rated load, and nominal line.

MECHANICAL DIMENSIONS: (UNIT: mm[inch])

OUTPUT CABLE RECOMMEND:

- 1. Selected output connectors and wire, please refer to Appendix.
- 2. SPU131-105~106 are required to use AWG#16*5C/4FT output cable.
- 3. SPU131-107~108 are required to use AWG#16*4C/4FT output cable.
- 4. SPU131-109 $^{\sim}$ 110 are required to use AWG#16 * 2C/4FT output cable.
- 5. SPU131-111~112 are required to use AWG#18*2C/4FT output cable.
- 6. The regulation and efficiency will be changed by modified output cable.

PACKING

- 1. Net weight: 778~800g approx.
- 2. Optional output connectors available contact sales for details.
